

Daniel Okafor

Remote (GMT+1) · d.okafor@example.com · linkedin.com/in/dokafor-dev

SUMMARY

Full-stack developer (3 years) who transitioned from data analytics. Fast learner with strong product sense, looking for a senior-track frontend role.

EXPERIENCE

Full-Stack Developer — GreenCart (e-commerce startup)

Remote · 2023 – present

- Built the customer-facing storefront in React with JavaScript (some TypeScript on newer modules)
- Created an internal admin dashboard with charts (Chart.js)
- Wrote unit tests with Jest for checkout logic; no e2e experience yet
- Only engineer on frontend; no formal mentoring experience

Junior Developer — GreenCart

Remote · 2022 – 2023

- Maintained Node.js/Express APIs and PostgreSQL schemas

Data Analyst — Retail Insights Ltd

Lagos · 2019 – 2022

- SQL reporting, Python dashboards (Plotly), stakeholder presentations

SKILLS

React, JavaScript, some TypeScript, Node.js, Express, Chart.js, Jest, SQL, Python

EDUCATION

BA Economics

University of Lagos · 2018

Frontend Development Bootcamp

Le Wagon · 2022

NOTES

Open to relocation or remote. Strong communication skills from analyst background.
