SUMMARY

Frontend engineer with 8 years of experience building data-heavy web applications, the last 4 in fintech. I care about performant UIs, type safety, and teams that ship.

EXPERIENCE

Lead Frontend Engineer — TradeFlow (fintech)

Barcelona · 2022 – present

- Own the React/TypeScript codebase for a real-time trading dashboard used by 12,000 daily traders
- Built WebSocket-driven price feeds rendering 400+ updates/sec with custom virtualization; reduced dropped frames by 90%
- Introduced a Playwright e2e suite; regression escapes down 70% in one year
- Mentor 3 junior engineers; run weekly frontend guild sessions

Senior Frontend Engineer — Kantox

Barcelona · 2019 – 2022

- Migrated a legacy AngularJS FX-hedging app to React + TypeScript over 14 months with zero downtime
- Implemented charting with D3 and lightweight-charts for treasury analytics
- Led a WCAG 2.1 AA audit and remediation across the product

Frontend Developer — Softonic

Barcelona · 2016 – 2019

- Shipped consumer-facing features in React; improved Core Web Vitals (LCP 4.1s → 1.8s)
