SUMMARY

Backend and infrastructure engineer with 6 years of experience in Java microservices and cloud platforms. Seeking new challenges.

EXPERIENCE

Senior Backend Engineer — Finserve Systems

Pune · 2021 – present

- Design and maintain Java/Spring Boot microservices processing payment transactions
- Built Kafka-based event pipelines handling 2M events/day
- Own Terraform modules and Kubernetes deployments on AWS

DevOps Engineer — CloudNine Solutions

Pune · 2018 – 2021

- Managed Jenkins CI/CD pipelines for 40+ services
- Wrote Ansible playbooks; led the on-call rotation

Software Engineer — Infosys

Pune · 2016 – 2018

- Java enterprise applications for banking clients
- Occasional JSP page fixes (only frontend exposure)

SKILLS

Java, Spring Boot, Kafka, Kubernetes, Terraform, AWS, Jenkins, Ansible, SQL

CERTIFICATIONS
